

# **ECOSTART FUNDRAISING PLATFORM**

**Earth is our common home!**

**We issue cryptocurrency  
TerraEcocoin (TECO) for our home**

A new approach to financing environmental projects using  
technology of blockchain

# ECOSTART SOLUTION

The Ecostart project is aimed at solving one of the most acute problems of all mankind - ecological, using blockchain technology to create and operate system of financing and implementation of environmental projects

## KEY PROBLEM

The deficit of financing of environmental activities.

## SOLUTION

Ecostart - a tool for fundraising cryptocurrency for the financing of ecological projects, with the help of:

1. Fundraising service
2. Investment Environmental Fund (IEF)
3. Transfers of part of the commission from TECO transactions to IEF

## Key Benefits

Absence of intermediaries

Efficiency 24/7

Transparency

# ECOSTART SERVICES

**Ecostart – an innovative solution for the global market for ecological projects, with its own TECO cryptocurrency with the generation of POI (Proof-of-Importance)**

**The platform provides the following services:**

Cryptomessenger

Service for the emission of tokens initiators of ecological projects

Decentralized ecological fund (IEF)

Service for expertise, recommendations and ratings

Annex on Space Monitoring of the Earth's Surface

Crypto Lottery

The motivation system for volunteers
